Dear Examiner;

Pursuant to our telephone conversation on October 8, 1999, in which you indicated that submittal of the drawing identified in the specification as Figure 4 should be provided directly to you, please enter the enclosed drawing as Figure 4.

Note that Figure 4 herein adds no new matter in that it is described in the specification. Moreover, note that Figure 4 is also included as a figure in the priority documents listed for the present application. To wit, Figure 4 is disclosed in PCT/US97/15892 filed September 8, 1997, and also in U.S. Provisional Application No. 60/062,931 filed October 21, 1997.

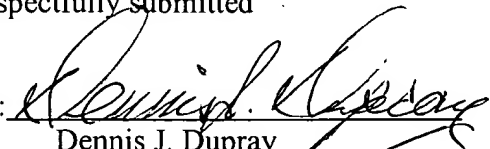

Also, enclosed herein is an oath referring to the enclosed drawing Figure 4.

Accordingly, it is believed that the enclosed Figure 4 removes the objection raised by the Examiner in the Office Action mailed September 23, 1999. Accordingly, it is requested that the Examiner reconsider the above-identified objection. In the event that the Examiner has any questions regarding this transmittal or the entry of Figure 4, the Examiner is invited to contact the Applicant named below at (303) 863-2975.

Pursuant to our conversation, it is believed that no fees are due with this transmittal; however, if additional fees are due, please contact the Applicant below so that such fee can be timely paid.

Respectfully submitted
